DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 6/8/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of USSN 10/728779 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance:
 - The primary reason for allowance for claims 1, 19, and 38 is due to the inclusion of the limitation which states "the nozzle and an inlet through which the ejectable liquid is supplied to the nozzle are configured so that the outgoing heat energy due to the net effect of the ejected and replacement quantities of ejectable liquid is substantially equal to the amount of heat energy added to the ejectable liquid by the heater element; such that, after the gas bubble collapses and before the heater subsequently activates, the temperature of the bubble forming liquid is at least 10 degrees C cooler than its boiling point." The limitation overcomes the prior art.
 - The reason for allowance for claims 2-8, 10-18, 20-27, 29-37, 39-44, and 46-54 is due to their dependency on claims 1, 19, and 38 which are deemed allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Han S. Choi whose telephone number is (571) 272-8350. The examiner can normally be reached on Monday - Friday, 8:30am to 5:00pm.
